

# Prevention, early intervention and community development strategies will improve health outcomes

## Objectives

- ❖ Improve health outcomes for vulnerable populations
- ❖ Support people to manage their own health and maximise wellbeing

## Activities, Programs & Projects

- ❖ Healthy Children's Initiative
- ❖ Get healthy in pregnancy initiative
- ❖ Violence Abuse and Neglect (VAN) Redesign Program
- ❖ Integrated Care for People with Chronic Conditions
- ❖ Joint regional Mental Health Plan (NSLHD and Sydney North PHN)

## Milestones & Measures

### *Improve health outcomes for vulnerable populations*

*Measure:* Reduce the rate of suicide deaths in NSW by 20 per cent by 2023.

*Milestone:* Implementation of the Violence, Abuse and Neglect state framework

### *Support people to manage their own health and maximise wellbeing*

*Milestone:* Development of the Joint regional Mental Health Plan on track

*Measure:* Number of new patients participating in the Integrated Care for People with Chronic Conditions Program (ICPCC)

*Measure:* Reduce preventable visits to hospital by five per cent through to 2023 by caring for people in the community.
