

NSW Health Service Agreement – 2021-22

Principal purpose

The principal purpose of the Service Agreement is to set out the service and performance expectations for funding and other support provided to Northern Sydney Local Health District (the Organisation), to ensure the provision of equitable, safe, high quality and human-centred healthcare services.

The agreement articulates direction, responsibility and accountability across the NSW Health system for the delivery of NSW Government and NSW Health priorities. Additionally, it specifies the service delivery and performance requirements expected of the Organisation that will be monitored in line with the NSW Health Performance Framework.

Through execution of the agreement, the Secretary agrees to provide the funding and other support to the Organisation as outlined in this Service Agreement.

1. Objectives of the Service Agreement

- To articulate responsibilities and accountabilities across all NSW Health entities for the delivery of NSW Government and NSW Health priorities.
- To establish with Local Health Districts (Districts) and Speciality Health Networks (Networks) a performance management and accountability system for the delivery of high quality, effective healthcare services that promote, protect and maintain the health of the community, and provide care and treatment to the people who need it, taking into account the particular needs of their diverse communities.
- To develop formal and ongoing, effective partnerships with Aboriginal Community Controlled Health Services ensuring all health plans and programs developed by Districts and Networks include measurable objectives that reflect agreed Aboriginal health priorities.
- To promote accountability to Government and the community for service delivery and funding.
- To ensure that the CORE Values of Collaboration, Openness, Respect and Empowerment are reinforced throughout NSW Health
- To ensure Districts and Networks engage in appropriate consultation with patients, carers and communities in the design and delivery of health services.
- To ensure that Districts and Networks work together with clinical staff about key decisions, such as resource allocation and service planning.

2. Legislation, governance and performance framework

2.1 Legislation

The *Health Services Act 1997* (the Act) provides a legislative framework for the public health system, including setting out purposes and/or functions in relation to Local Health Districts (ss. 8, 9, 10).

Under the Act, the Health Secretary's functions include: the facilitation of the achievement and maintenance of adequate standards of patient care within public hospitals, provision of governance, oversight and control of the public health system and the statutory health organisations within it, as well as in relation to other services provided by the public health system, and to facilitate the efficient and economic operation of the public health system (s.122).

The Act allows the Health Secretary to enter into performance agreements with Local Health Districts in relation to the provision of health services and health support services (s.126). The performance agreement may include provisions of a service agreement.

Under the Act, the Minister may attach conditions to the payment of any subsidy (or part of any subsidy) (s.127). As a condition of subsidy, all funding provided for specific purposes must be used for those purposes unless approved by the Health Secretary.

2.2 Variation of the agreement

The Agreement may be amended at any time by agreement in writing between the Organisation and the Ministry of Health.

The Agreement may also be varied by the Secretary or the Minister in the exercise of their general powers under the Act, including determination of the role, functions and activities of Local Health Districts (s. 32).

Any updates to finance or activity information further to the original contents of the Agreement will be provided through separate documents that may be issued by the Ministry of Health in the course of the year.

2.3 National Agreement

The National Cabinet has reaffirmed that providing universal healthcare for all Australians is a shared priority and agreed in a Heads of Agreement for public hospitals funding from 1 July 2020 to 30 June 2025. That Agreement maintains activity based funding and the national efficient price. There is a focus on improved patient safety, quality of services and reduce unnecessary hospitalisations. The Commonwealth will continue its focus on reforms in primary care that are designed to improve patient outcomes and reduce avoidable hospital admissions.

2.4 Governance

The Organisation must ensure that all applicable duties, obligations and accountabilities are understood and complied with, and that services are provided in a manner consistent with all NSW Health policies, procedures, plans, circulars, inter-agency agreements, Ministerial directives and other instruments and statutory obligations.

2.4.1 Clinical governance

NSW public health services are accredited against the *National Safety and Quality Health Service Standards*.

<https://www.safetyandquality.gov.au/our-work/assessment-to-the-nsqhs-standards/nsqhs-standards-second-edition/>

The *Australian Safety and Quality Framework for Health Care* provides a set of guiding principles that can assist health services with their clinical governance obligations.

<https://www.safetyandquality.gov.au/publications-and-resources/resource-library/australian-safety-and-quality-framework-health-care>

The NSW Patient Safety and Clinical Quality Program provides an important framework for improvements to clinical quality.

http://www1.health.nsw.gov.au/pds/ActivePDSDocuments/PD2005_608.pdf

2.4.2 Corporate governance

The Organisation must ensure services are delivered in a manner consistent with the *NSW Health Corporate Governance and Accountability Compendium* (the Compendium) seven corporate governance standards. The Compendium is at:

<http://www.health.nsw.gov.au/policies/manuals/pages/corporate-governance-compendium.aspx>

Where applicable, the Organisation is to:

- Provide required reports in accordance with timeframes advised by the Ministry;
- Review and update the *Manual of Delegations* (PD2012_059) to ensure currency;
- Ensure recommendations of the NSW Auditor-General, the Public Accounts Committee and the NSW Ombudsman, where accepted by NSW Health, are actioned in a timely and effective manner, and that repeat audit issues are avoided.

2.4.3 Procurement governance

The Organisation must ensure procurement of goods and services complies with the *NSW Health Goods and Services Procurement Policy Directive* (PD2019_028). This policy directive details the requirements for all staff undertaking procurement or disposal of goods and services on behalf of NSW Health. The policy is at: https://www1.health.nsw.gov.au/pds/Pages/doc.aspx?dn=PD2019_028

2.4.4 Aboriginal Procurement Policy

The NSW Government support employment opportunities for Aboriginal people, and the sustainable growth of Aboriginal businesses by driving demand via Government procurement of goods, services and construction. NSW Government agencies must apply the *Aboriginal Procurement Policy* to all relevant procurement activities. The policy is at:

<https://buy.nsw.gov.au/policy-library/policies/aboriginal-procurement-policy>

2.4.5 Performance Framework

Service Agreements are a central component of the *NSW Health Performance Framework*, which documents how the Ministry monitors and assesses the performance of public sector health services to achieve expected service levels, financial performance, governance and other requirements.

The performance of a health service is assessed on whether the organisation is meeting the strategic objectives for NSW Health and government, the Premier's Priorities and performance against key performance indicators. The availability and implementation of governance structures and processes, and whether there has been a significant critical incident or sentinel event also influences the assessment.

The Framework sets out responses to performance concerns and management processes that support the achievement of outcomes in accordance with NSW Health and government policies and priorities. Performance concerns will be raised with the Organisation for focused discussion at performance review meetings in line with the *NSW Health Performance Framework* available at:

<http://www.health.nsw.gov.au/Performance/Pages/frameworks.aspx>

3. Strategic and local priorities

The delivery of NSW Health strategies and priorities is the responsibility of the Ministry of Health, health services and support organisations. These are to be reflected in the strategic, operational and business plans of these entities.

3.1 NSW Premier's Priorities

In June 2019, the NSW Premier set new social priorities to tackle tough community challenges, lift the quality of life for everyone in NSW and put people at the heart of everything the Government does.

NSW Health is leading the three priorities for improving the health system:

- Improving outpatient and community care
Reduce preventable hospital visits by 5% through to 2023 by caring for people in the community.
- Improving service levels in hospitals
100% of all triage category 1, 95% of triage category 2, and 85% of triage category 3 patients commencing treatment on time by 2023
- Towards zero suicides
Reduce the rate of suicide deaths in NSW by 20% by 2023

NSW Health staff will continue to work together to deliver a sustainable health system that delivers outcomes that matter to patients and the community, is personalised, invests in wellness and is digitally enabled.

3.2 NSW Health Outcome and Business Plan

The NSW Treasury Outcome Budgeting initiative intends to transform the way budget decisions are made, and resources are managed in the NSW public sector. The overarching objective of Outcome Budgeting is to shift the focus of the NSW Government to deliver better outcomes for the people of NSW with increased transparency, accountability and value (TPP 18-09 – available at <https://www.treasury.nsw.gov.au/sites/default/files/2018-12/TPP18-09%20Outcome%20Budgeting.pdf>).

The NSW Health Outcome and Business Plan is an agreement between the Minister for Health and Medical Research, the Secretary, NSW Health and the NSW Government setting out the outcomes and objectives that will be the focus for the current period.

NSW Health has identified five state outcomes that it will achieve for the people of NSW. The state outcomes cover the broad range of functions and services provided across care settings.

1. Keeping people healthy through prevention and health promotion
2. People can access care in out of hospital settings to manage their health and wellbeing
3. People receive timely emergency care
4. People receive high-quality, safe care in our hospitals
5. Our people and systems are continuously improving to deliver the best health outcomes and experiences

To achieve these outcomes, NSW Health has set a series of ambitious targets and has a comprehensive program of change initiatives in place. These targets have been built into key performance indicators in the Service Agreement, the *NSW Health Performance Framework*, the *NSW Health Purchasing Framework* and the funding model.

3.3 Local priorities

Under the *Health Services Act 1997*, Boards have the function of ensuring that Districts and Networks develop strategic plans to guide the delivery of services, and for approving these plans.

The Organisation is responsible for developing the following plans with Board oversight:

- Strategic Plan
- Clinical Services Plans
- Safety and Quality Account and subsequent Safety and Quality Plan
- Workforce Plan
- Corporate Governance Plan
- Asset Strategic Plan

It is recognised that the Organisation will implement local priorities to meet the needs of their respective populations.

The Organisation's local priorities for 2021-2022 are as follows:

Northern Sydney Local Health District (NSLHD) will continue to focus on delivering high-quality, timely care for our residents. We will do this whilst evolving our services given the longer-term challenges of the COVID-19 pandemic including sustaining COVID-19 vaccination rates, maintaining our high performance on access to emergency care and elective surgery access. We will continue to optimise the allocation of activity to ensure equity of access throughout our region.

NSLHD will consolidate the benefits of its redevelopments (the Hornsby Ku-ring-gai Hospital stage 2 redevelopment and the new GEM and Palliative Care Service at Mona Vale Hospital) and will continue to progress planning for the \$479 million redevelopment of Ryde Hospital. We will also continue the ongoing operational collaboration with HealthScope to ensure Northern Beaches Hospital provides the local population with timely access to high-quality health care.

Improving the health and care of frail people will remain a priority for NSLHD. Quality health care will be supported by provision of services for patients within the home where possible, as well as continued support for residential aged care facilities to maintain safe, high-quality care across the patient journey. Implementation of service improvement initiatives as a result of the Local Health Districts review of rehabilitation services across the District will ensure optimum delivery of health care across a wide range of settings.

A strategic framework has been established to guide the delivery of non-admitted health care in NSLHD and we will continue to implement initiatives to improve patient outcomes and efficiency of care. This will include consolidating the use of Telehealth delivered services.

NSLHD will continue to develop a platform for innovation and knowledge, allowing district staff to develop new approaches for the delivery of care. Within this, the innovative extraction and utilisation of clinical data to improve clinical outcomes will continue to be a focus for the 2021-22 Financial Year.

In addition, we will continue to embed the positive benefits of innovative and rapid change that occurred during the COVID-19 pandemic, whilst maintaining a state of readiness given the ongoing challenges of the pandemic.

4. NSW health services and networks

4.1 Services

The Organisation is to maintain up to date information for the public on its website regarding its facilities and services including population health, inpatient services, community health, other non-inpatient services and multipurpose services (where applicable), in accordance with approved role delineation levels.

The Organisation is to enter into an annual Service Agreement with Affiliated Health Organisations (AHOs) in receipt of subsidies in respect of services recognised under Schedule 3 of the *Health Services Act 1997*.

The Organisation will also maintain up to date details of:

- Non-Government Organisations (NGOs) for which the commissioning agency is the Organisation, noting that NGOs for which the commissioning agency is the NSW Ministry of Health are included in NSW Health Annual Reports.
- Primary Health Networks with which the Organisation has a relationship.

4.2 Networks and services provided to other organisations

Each NSW Health service is a part of integrated networks of clinical services that aim to ensure timely access to appropriate care for all eligible patients. The Organisation must ensure effective contribution, where applicable, to the operation of statewide and local networks of retrieval, specialty service transfer and inter-district networked specialty clinical services.

4.3 Cross district referral networks

Districts and Networks are part of a referral network with other relevant services, and must ensure the continued effective operation of these networks, especially the following:

- *Critical Care Tertiary Referral Networks and Transfer of Care (Adults)* - (PD2018_011)
- *Interfacility Transfer Process for Adult Patients Requiring Specialist Care* - (PD2011_031)
- *Critical Care Tertiary Referral Networks (Paediatrics)* - (PD2010_030)
- *Children and Adolescents - Inter-Facility Transfers* - (PD2010_031)
- *Tiered Networking Arrangements for Perinatal Care in NSW* (PD2020_014)
- *NSW State Spinal Cord Injury Referral Network* - (PD2018_011)
- *NSW Major Trauma Referral Networks (Adults)* - (PD2018_011)
- *Children and Adolescents with Mental Health Problems Requiring Inpatient Care* - (PD2011_016)
- *Adult Mental Health Intensive Care Networks* - (PD2019_024)
- *State-wide Intellectual Disability Mental Health Hubs* - (Services provided as per March 2019 Service Level Agreements with Sydney Children's Hospitals Network and Sydney Local Health District)

4.4 Supra LHD services

Under the NSW Framework for New Health Technologies and Specialised Services (GL2018_023), Supra LHD services are provided across District and Network boundaries and are characterised by a combination of the following factors:

- Services are provided on behalf of the State; that is, a significant proportion of service users are from outside the host District's/Network's catchment
- Services are provided from limited sites across NSW
- Services are high cost with low-volume activity
- Individual clinicians or teams in Supra LHD services have specialised skills
- Provision of the service is dependent on highly specialised equipment and/or support services
- Significant investment in infrastructure is required

Ensuring equitable access to Supra LHD services is a key focus. Supra-LHD services are expected to establish efficient and effective referral networks to ensure all eligible patients in NSW have access regardless of their location.

Annual reporting processes are being trialled with selected services in 2021-22. These reports are being developed in collaboration with clinical teams and host districts and networks to ensure they are tailored to the requirements of specific services.

The following information is included in all Service Agreements to provide an overview of recognised Supra LHD services and Nationally Funded Centres in NSW.

NOTES:		
The minimum weekly cash reserve buffer for unrestricted cash at bank has been updated for FY 2020/21 to \$1.5m.		
Based on final June 2021 cash balances, adjustments will be made from July 2021 to ensure alignment with the cash buffer requirements of NSW Treasury Circular TC15_01 Cash Management – Expanding the Scope of the Treasury Banking System.		
The minimum weekly cash buffer relates to cash held in General Fund bank accounts only and will be used to determine subsidy cash sweep amounts in line with the schedule advised by the Ministry of Health.		
The Ministry will closely monitor cash at bank balances during the year, excess cash will be swept back to the Ministry of Health regularly and made available to be allocated to the central payments bank accounts as required.		
Compliance with the General Sector Finance Act (2018), NSW Treasury and NSW Health policy and directives will also be monitored.		
* The subsidy amount does not include items E and G, which are revenue receipts retained by the LHDs/SHNs and sit outside the National Pool.
